3 years of experience in building interactive web applications, REST APIs, and dynamic UI components using ASP.NET Core, Entity Framework Core, and Blazor (Server & WASM). Specialized in Blazor component development, dynamic data rendering, pixel-perfect adaptive styling, and integration of external APIs.

Location: Lutsk, Ukraine

Ukrainian - native, English - C1, German - B1, Norwegian - A1

SOFT SKILLS: Teamwork | Fast Learning | Communication | Problem-Solving | Creativity | Critical Thinking

TECHNICAL SKILLS

Frontend Development:

- Languages: C#, HTML5, CSS3, SASS, JavaScript
- Frameworks/Libraries: Blazor (Server & WASM), Bootstrap, Highcharts, MAUI Blazor

Backend (using C#):

- .NET 5-8, Minimal API, REST API, ASP.NET Core, MSSQL, Entity Framework Core, Dapper

Tools & DevOps:

- Version Control: Git, GitLab, GitHub
- Build Tools: Gulp
- CI/CD: Strong understanding of CI\CD, GitLab CI\CD, TeamCity

Other: Unit Testing, CI/CD Pipelines, Debugging & Performance Optimization

PROFESSIONAL EXPERIENCE

Fullstack Software Engineer Mint Innovations | Lutsk, Ukraine | 2022 - 2025

- Designed and developed Blazor Server and WASM applications with clean component architecture
- Built and maintained reusable UI components, custom dropdowns, filters, and grids using Blazor
- Developed RESTful APIs using ASP.NET Core
- Worked with MAUI to develop mobile client apps synced with existing Blazor platform
- Implemented dynamic charting and data visualization with Highcharts (JS interop)
- Improved app performance and user experience through code refactoring and async logic
- Developed utilities for exporting and downloading tables directly from UI
- Applied pixel-perfect and responsive design principles in Blazor components
- Created and maintained NuGet packages used across internal tools
- Collaborated with a cross-functional team, participated in standups and feature grooming

PROJECTS HIGHLIGHTS:

- Built fully interactive Blazor UI for filtering, configuring and tracking parcel lockers
- Developed a component library with reusable elements: dynamic charts, filters, dropdowns
- Real-time updates via SignalR
- Product landing pages (pixel-perfect)

EDUCATION

Master's Degree in Applied Linguistics
(Volyn National University, 2017-2024)
